

NICKEL

The finish of the Nickel butterfly is vibrant and sticking. It's perhaps my favorite one visually. As with the other finishes the importance of each standard color is to create a unique connection with each space I'm installing them in. When I look at each potential area my clients are considering I come up with a direction based on their esthetics. Each environment is different from the next. Sometimes we stick with one color and sometimes we mix the metals which I love. The colors and textures of each room dictate that. Each one of my butterfly sculptures is handmade and come in four standard sizes including 3", 5", 7" and 9". The standard colors are White, Black, Nickel, Rose Gold, Matte Gold and Glossy Gold. Custom colors are always welcomed for an additional cost.

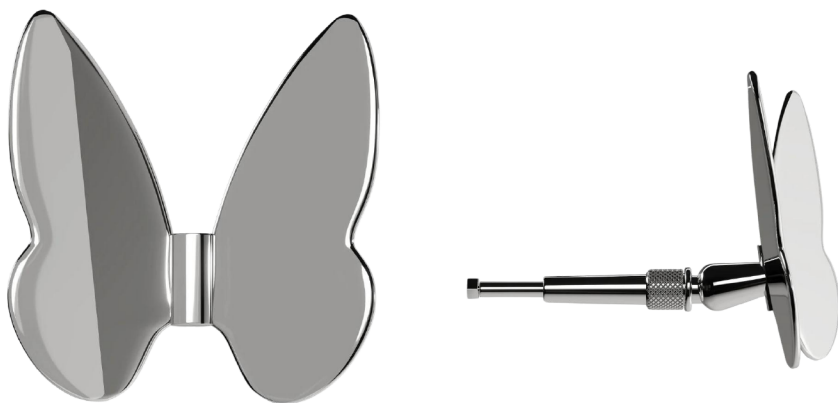

SIZES AVAILABLE

3 inches (7.62 cm)

5 inches (12.7 cm)

7 inches (17.78 cm)

9 inches (22.86 cm).
