

FLOATING LIANA

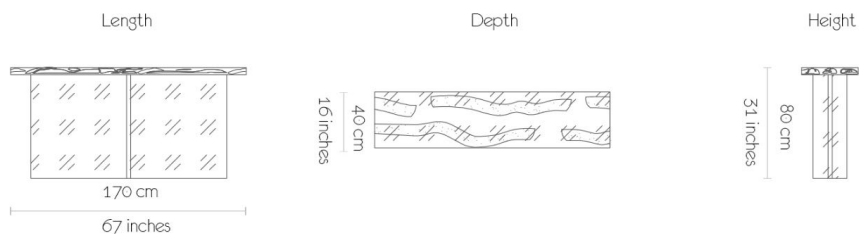

Console Ref: FLOATING LIANA CO

Nature and Innovation come together in this console as the naturally twisted Liana woods are floating in an extra clear lake of Resin and resting on a glass base. The straight shape of top and base provide the contemporary "invisible" background to have nature be the unique design element.

Designed by Architect Fernan Hernandez | *Hand-crafted in Italy.*

As shown | Wood: Natural Glass: Clear

Available in other dimensions and materials upon request | Hand Crafted in Italy
