

# FLOATING LIANA

Coffee Table Ref: FLOATING LIANA CT

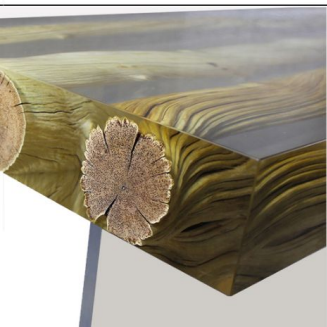

Nature and Innovation come together in this coffee table as the naturally twisted Liana woods are floating in an extra clear lake of Resin and resting on a glass base. The straight shape of top and base provide the contemporary "invisible" background to have nature be the unique design element.

*Designed by Architect Fernan Hernandez | Hand-crafted in Italy.*

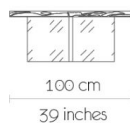

As shown | Wood: Natural Glass: Clear

*Available in other dimensions and materials upon request | Hand Crafted in Italy*
