

PETRA PILLAR

Dining table Ref: PETRA PILLAR DTS / PETRA PILLAR DTM / PETRA PILLAR DTL

In Greek mythology, Medusa could turn her beholder into stone just by a look. For wood, this process takes millions of years resulting in a breathtaking beautiful dense material. Buried in the soil, the enclosure of metals and minerals during this natural transformation give each piece a unique set of colors and veins. Combined with the strong yet elegant metal base this unique material formed by nature is transformed into a luxurious contemporary dining table.
