Round coffee table Ref: PETRA RONDO CTS / PETRA RONDO CTM /  
PETRA RONDO CTL / PETRA RONDO CTXL

In Greek mythology, Medusa could turn her beholder into stone just by a look. For wood, this process takes millions of years resulting in a breathtaking beautiful dense material. Buried in the soil, the enclosure of metals and minerals during this natural transformation give each piece a unique set of colors and veins. Floating on an acrylic base, the unique material formed by nature is the design protagonist of this coffee table.
