

PETRA SLICE

Side table Ref: PETRA S/WRL

In Greek mythology, Medusa could turn her looker into stone. For wood, the process takes millions of years but the beauty of the resulting texture is breathtaking. The metals and mineral enclosed in the structure give each piece a unique color pattern and make it a great complement in your home

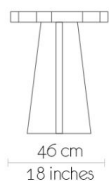

Designed by Architect Fernan Hernandez | *Hand-crafted in Italy.*

Petrified Wood: White, Grey, Black.
Acrylic: Extra clear.

As shown | Petrified Wood: White Acrylic: Extra clear.
