

VERONITA

Sofa Ref: VERONITA SOG / VERONITA SOM / VERONITA SOL

The VERONITA system consists of a timelessly shaped seat area and moveable bolsters to provide a multi-functional, flexible relaxing space. The integrated stabilization mechanism and the special non-slip texture at the bottom of the bolsters provide hold as a backrest, armrest or lounger while having the flexibility to re-arrange the configuration to your need and liking. Removed completely, the VERONITA turns into a comfortable extra bed because of its multi-layer memory foam and down-feathered upholstery.

Designed by Architect Fernan Hernandez | *Hand-crafted in Italy.*
